

Team Cycle For Life

Thank you for your interest in Team Cycle For Life (CFL). Team CFL consists of 20 members who will raise funds, ride the TD 5 Boro Bike Tour and represent the Cystic Fibrosis Foundation and help create awareness for people with CF. Team members will not only have the opportunity to ride the TD 5 Boro Bike Tour, but will also participate in the Cycle For Life bike tour happening in Long Island on September 16, 2017.

Team CFL members will be required to raise a minimum of \$1,000. This will entitle participants to receive:

- Charity/VIP participation in TD Five Boro Bike Tour on May 7, 2017. Includes preferred start and breakfast.
- VIP participation in Long Island Cycle For Life on September 16, 2017. Team CFL Banner and VIP Parking. Includes breakfast and lunch.
- Official 2017 CFL jersey
- Water Bottle

Fundraising minimum must be met as follows:

- 75% of fundraising (\$750) on or before April 25, 2017
- 100% of fundraising (\$1000) on or before September 16, 2017

Space is very limited. To reserve your place on the team please contact:

Cystic Fibrosis Foundation

The Cystic Fibrosis Foundation has unrestricted financial reserves of about 12 times its budgeted annual expenses, following a one-time royalty sale in 2014. These funds, along with the public's continuing support, are needed to help accelerate our efforts to pursue a lifelong cure for this fatal disease, develop lifesaving new therapies and help all people with CF live full, productive lives. To request a copy of our Strategic Plan, email info@cff.org or call 800 FIGHT-CF.

Important Note on Attendance at Foundation Events: To reduce the risk of getting and spreading germs at CF Foundation-sponsored events, we ask that everyone follow basic best practices by regularly cleaning your hands with soap and water or with an alcohol-based hand gel, covering your cough or sneeze with a tissue or your inner elbow and maintaining a safe 6-foot distance from anyone with a cold or infection. Medical evidence shows that germs may spread among people with CF through direct and indirect contact as well as through droplets that travel short distances when a person coughs or sneezes. These germs can lead to worsening symptoms and speed decline in lung function. To further help reduce the risk of cross-infection, the Foundation's attendance policy recommends that all people with CF maintain a safe 6-foot distance from each other at all times while attending an outdoor Foundation-sponsored event.
